INFORMATION FOR NEW SERVICE APPLICANTS**

STEPS NECESSARY TO ACQUIRE SERVICE:

Fill out a Hydraulic Investigation Request, pay the required fee, and provide a map or location of the property where service is requested.

All hydraulic fees are used to pay the cost for the study and are non-refundable. Applicant is responsible for ensuring compliance with county regulations. Any revisions made to the study after it has been processed will require the submission of a new hydraulic investigation and any applicable fees.

Fees for service after hydraulic study results are received will be:

Meter Size	<u>5/8" x 3/4"</u>	<u>1"</u>	<u>1.5"</u>	<u>2"</u>	<u>3" Turbine</u>	<u>4" Turbine</u>	<u>6" Turbine</u>	<u>8" Ultrasonic</u>
5/8"x3/4" Equivalent	1	2.5	5	8	17.5	30	62.5	80

Monthly Service Availability Charge	\$45.00	\$112.50	\$225.00	\$360.00	\$787.50	\$1,350.00	\$2,812.50	\$3,600.00
Maximum GPM*	20 GPM	50 GPM	100 GPM	160 GPM	500 GPM	750 GPM	1600 GPM	1600 GPM

*Listed GPM is based on AWWA standards and may not reflect our hydraulic model. Real-world capacity and appropriate meter size will be determined through the hydraulic investigation process.

Plus, any additional costs to provide service to your property; such as road crossings and/or line extensions. Any additional costs will be disclosed in the final cost letter for your hydraulic investigation.

All required paperwork must be completed and turned in to the Office and all fees paid by the turn-in deadline listed on the final cost letter for your hydraulic investigation in order to install the meter.

When your meter has been installed, a monthly service availability charge will be due regardless of water usage or connection of service. Please see the table above for monthly charges based on meter size.

If any member or applicant is installing a concrete or asphalt driveway, or if a waterline extension is required to service the property, they must notify the corporation in writing and pay the cost to encase the waterline at every concrete or asphalt driveway location. When Southwest Milam Water Supply determines that backflow prevention is required in connection with a meter, the applicant must pay all costs for materials and installation of a backflow prevention device, as well as testing of the device as required by the state.

Please review the Corporation's Tariff for all service rules and regulations. A current copy of the Corporation's Tariff can be requested in our office or found on our website.
